- **Problem-Solving** : The ability to identify problems, think critically, and come up with effective solutions.

ACHIEVEMENT

- Participate in Honeywell Youth India Techkathon 2022 Conducted by ICT Academy
- First Place in State Level Karate Tournament

PROJECT

Project Title : Luxe Home – Home Booking Landing Website

Description : Luxe Home is a responsive frontend web application for booking homes and accommodations. Built using HTML, CSS, and JavaScript, it features a modern and user-friendly design. The website includes key pages such as Home, About, Rooms, and Contact, along with a scrolling section for seamless navigation to essential features like room booking, feedback submission, and a photo gallery. Smooth animations and an interactive UI enhance the user experience, making it an efficient platform for home reservations.

CERTIFICATES

- Certificate in Design Thinking Workshop at Madras Institute Of Technology
- Certificate in Cyber Security Workshop at Chennai Institute Of Technology
- Certificate in C & JAVA PROGRAMMING from Silicon Software Service (DURATION-6 MONTHS).

INTERNSHIP

I successfully completed a web development internship at Askon Technologies, where I gained practical experience in designing and developing web applications using HTML, CSS, and JavaScript.

PERSONAL DETAILS

- **Father Name** : J.Suresh(Late)
- **Mother Name** : S.Anuradha
- **D.O.B** : 13-12-2003

DECLARATION

I declare that all the information in this resume is true and correct to the best of my knowledge. I look forward to the opportunity to contribute to your organization.

Place : Chennai
